FOR IMMEDIATE RELEASE

HealthReach Physician to offer additional services in Somerset and Franklin Counties

WATERVILLE – Diane Zavotsky, MD will start providing additional services at HealthReach Community Health Centers this winter. In 2016, Diane joined the per diem pool of providers who fill in as needed to provide uninterrupted care to patients when site providers are in training or on leave. She will be extending her time to offer regular hours in Bingham, Madison, Rangeley and Kingfield.

Diane brings 30 years of experience in family medicine, women’s health, and patient hospital medicine. She obtained her Doctor of Medicine and Master of Surgery degree at McGill University Faculty of Medicine, Montreal, Quebec, Canada in 1986 and subsequently completed Family Practice Residency at Central Maine Medical Center, Lewiston Maine. Previously she was awarded a Bachelor of Art degree in Biology at Colby College, Waterville, Maine. Her clinical areas of interest include full scope family medicine.

Diane recently shared her thoughts on increasing her care of HealthReach patients: “It’s been said that family physicians ‘are more conscious of social purpose than other physicians’. During the past three years, I’ve been impressed with the work I see HealthReach doing to bring quality and compassionate primary care to the communities near my home in Somerset County. The organization has embodied the ‘team approach’, which is necessary today, however I also see physicians are increasingly absent from the ‘team’ in rural Maine. I hope that my training and experience add something valuable to the terrific care that these teams already deliver. I am grateful for HealthReach giving me the opportunity to contribute to my sense of local ‘social purpose’.”

HealthReach Community Health Centers is a system of eleven Federally Qualified Health Centers in Central and Western Maine. Dedicated providers deliver high quality medical and behavioral health care to citizens in over 80 rural communities. To ensure access for everyone, HealthReach accepts Medicare, MaineCare and major insurances. In addition, an Affordable Care Program is available to uninsured and underinsured residents as well as assistance with applications for programs that help with the cost of health care and medications including the Health Insurance Marketplace.

A private, non-profit celebrating a 44-year history, HealthReach is funded by patient fees, grants and by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling \$4,053,390 with 82.5 percent financed with non-governmental sources. The contents are those of the author and do not necessarily represent the official views of, nor an endorsement, by HRSA, HHS or the U.S. Government.
